Construction Features

1. Galvanized steel facings
2. Flush-glazed or standard lite inserts available
3. Authentic stile & rail facing construction (flush-glazed)
4. Tempered, insulated glass

Standard-Glazed

Masonite® Patio Door Features and Options

Standard Features:

Frames

4-9/16" primed wood frames with brickmould

Glass

Clear, 1-lite insulated glass, 6'8" or 8'0"

Hardware Preparation

All fiberglass door units feature a square-edge design providing easy hardware installation and wood door appearance. Double-bore is standard on both steel and fiberglass.

High-Dam Thresholds

All Masonite® Patio (inswing) units feature a high-dam, adjustable, composite cap threshold. Combining high-dam technology with a high quality door bottom, securely protects the bottom of the patio unit from air and water infiltration. Outswing units utilize a bumper sill system.

Options:

Flush-Glazed Options: Textured Fiberglass or Wood-Edge Steel

Frames

6-9/16" frames for deeper wall applications are available

Screens

All screens have white frames and fiberglass mesh. They include a roll formed steel frame and four adjustable nylon rollers.
