

Performance based on complete assembled transom units
utilizing Specialty™ Insulated Glass and wood/PVC perimeter frame.

ENERGY PERFORMANCE RATING

Product description	U-Factor / Solar Heat Gain Coefficient (SHGC)
Clear 0.75" Insulated Glass (IG)	0.49 / 0.70
Clear 0.75" IG with Low-E	0.37 / 0.59
Clear 0.75" IG with Low-E (Argon)	0.34 / 0.58
Decorative 0.75" IG	0.42 / 0.63

NCTL Report #110-11640-01

Energy performance values have been established in accordance with the International Energy Conservation Code (IECC); U-factors determined in accordance to NFRC 100 & SHGC values determined in accordance with NFRC 200. See prescriptive performance criteria for Energy Star and/or IECC climate zones as well as local building codes.
