

ASPIRO™ SERIES | HARRING®

AUTHENTIC STILE & RAIL DOORS

Make a Statement with Every Opening

MASONITE
ARCHITECTURAL

Traditional and beautiful stile and rail construction that creates enduring beauty in any space.

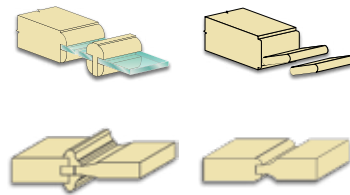

Harring Authentic Stile & Rail doors offer architecturally crafted doors that range from custom-made statements to functional solutions.

The Aspiro Series embodies the highest aesthetic and performance qualities and are ideal for use in spaces that will create the most impactful experience.

CUSTOM CONSTRUCTIONS

Our flexibility in tooling, manufacturing and equipment — paired with a creative team capable of building outside the norm — means we can produce a wide range of custom width, height and thicknesses for our door constructions.

CUSTOM PROFILED CONSTRUCTIONS

Our versatility allows us to provide both standard and custom profiles.

Standard Stain Options

CUSTOM VENEERS & STAINS

We work with a variety of domestic and exotic veneer species & stain options to give your project a custom look.

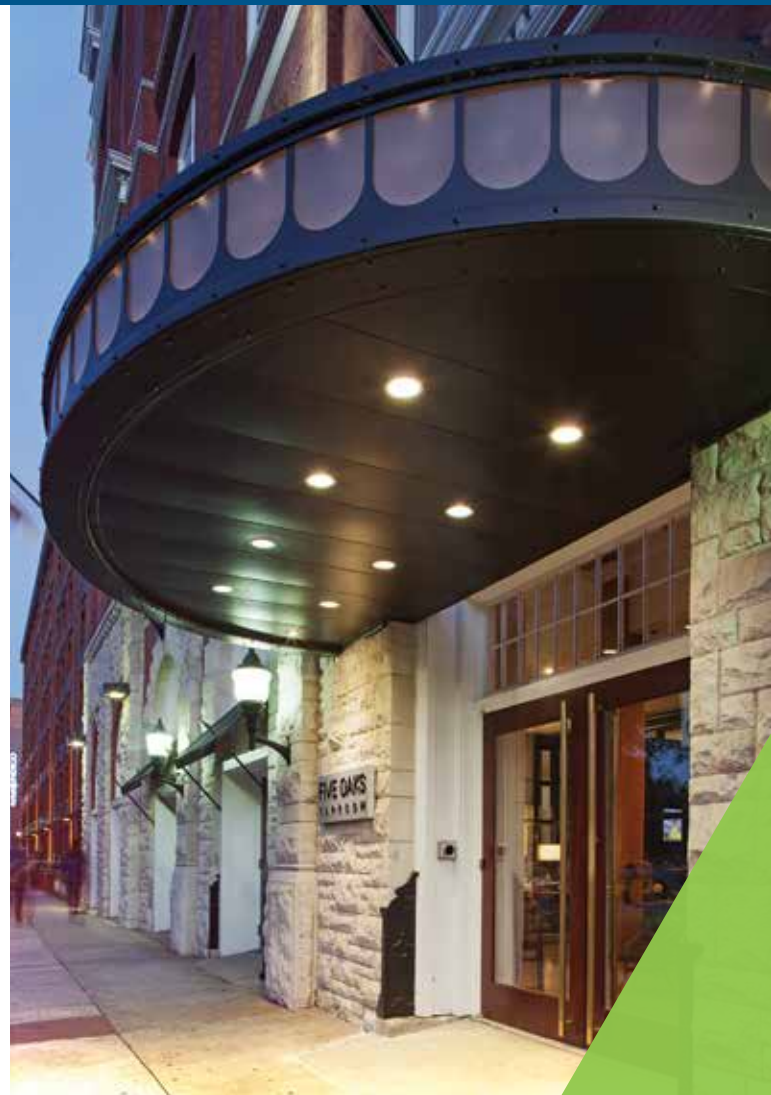

When We Say “Beyond Standard” We Mean It

✓ **FACTORY MACHINING**

We take pride in the accuracy of our London, Ontario machining department. With precise measurements and tooling, we're able to prepare a door to your exact specifications.

✓ **FACTORY FINISHING**

Our superior finishes on our Authentic Stile & Rail Doors are specially formulated to create a natural effect that allows the grain to show through, enhancing the wood's unique characteristics while providing a smooth-to-the-touch finish. The stain is sprayed on and then hand wiped to provide a high-end door finish.

Service Is Our Specialty

Our team of experts specialize in stile and rail wood door craftsmanship with an emphasis on quality, design options, flexibility and technical knowledge. Our extraordinary customer experience is built on customer-focused order, production and service functions. Combined with an end-to-end focus on quality, we've earned a reputation for doing things right.
